Old Business

Truck- Still looking for a 4-Wheel Drive

New Business

Public Meeting Regarding Source Water Plan- A meeting for the Source Water Protection Plan was opened for discussion and public comment.

Every three years we need to update our Source Water Protection Plan. These are a few of the areas that the plans examine are, the treatment facility and processes, the watershed that supplies the water to the source, potential sources of significant contamination within that watershed, the system's storage capacity and ability to divert water from the intake in case of a contamination. Update the Communications Plan, the Emergency Response Plan, and alternatives for back-up electricity.
